- Choice of over 40 colours for fabric tiles.

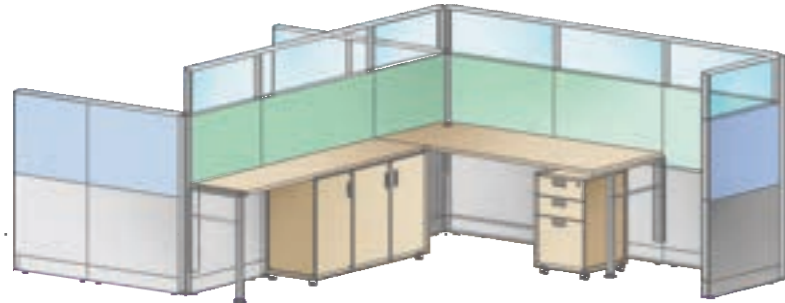

Linear workstation with intermediate glass separators and top supporting storages with individual locks. Staggered height return partition at the aisle side

WIRED TO PERFORM

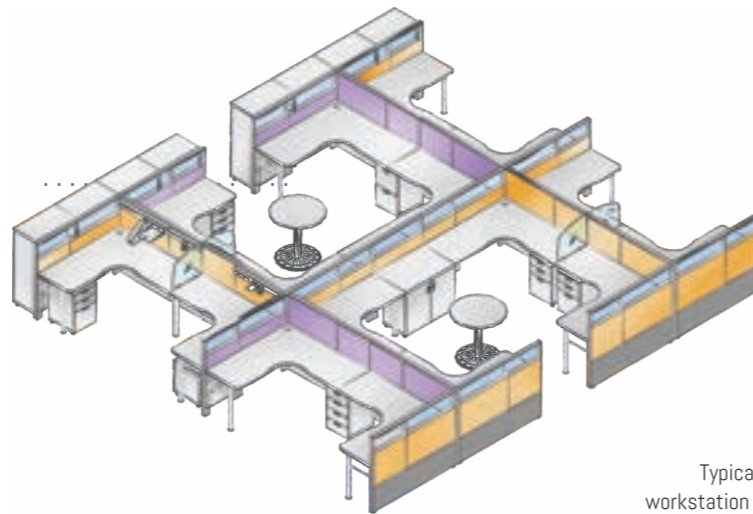

These systems feature comprehensive support of power and data routing and access for individual workstations making technology easily accessible. These systems have more than 40mm-42mm of clear space running throughout the frame / panel thus offering spacious cable ducts for ample wire space. A series of electrical raceways let you mount switches and sockets both above and below the worktop for easy access.
